

RECL-SOLABOT\_2021, Date: January 15, 2021

**To Whom It May Concern**

Subject: Confirmation of Conformity of the PV Module Cleaning system, Solabot SB-01

This letter is to confirm that Solabot, Model # SB-01 cleaning equipment is approved to clean Risen RSM series PV modules, on following terms.

Risen warrants its RSM Series PV modules in accordance with its PV Module Warranty Terms and Conditions, provided, the PV modules are installed, operated and maintained as described in the Risen Installation and Maintenance Manual. Risen does not warrant against breakage, damage, wear or drop in module performance, that are caused by the cleaning equipment and process. For this reason, this Confirmation of Conformity is not a guarantee of Warranty.

In accordance to the cleaning equipment description and specification of SOLABOT (Appendix A) along with the following requirements, Risen Energy Co., Ltd. is pleased to approve the use of SB-01 cleaning machine on Risen Solar PV modules.

Requirements:

1. All the PV modules mounted on the structure / table should be installed on the same level and the cleaning machine should roll slowly, smoothly without any vibration.
2. The soft brushes shall not scratch or damage the anti-reflective coat on the surface of the glass during the cleaning process.
3. RISEN is not responsible for any damage to the Solar PV Module that include appearance change, power loss, PV cell micro cracks, etc., caused by the cleaning equipment.

Approval of SOLABOT cleaning apparatus is based upon the datasheet, cleaning equipment specifications and process provided to RISEN, effective at the time of issuance of this Confirmation. Changes to the cleaning equipment specification or cleaning processes nullify this Confirmation of Conformity. In the event of non-compliance, RISEN reserves the right to alter or withdraw the approval to the Module Cleaning system, as well as a possible revocation of the Confirmation of Conformity.

Yours sincerely,  
For **Risen Energy Co., Ltd,**
